

**THE UNIVERSITY OF CHICAGO
COMMITTEE ON MICROBIOLOGY**

The Howard T. Ricketts Symposium on Microbiology

Scott Hultgren, Ph.D.

Helen L. Stoeber Professor,
Department of Molecular Microbiology
Washington University-St. Louis

**“Intracellular bacterial communities in pathogenesis: tactic
for subverting innate defenses”**

Thomas Shenk, Ph.D.

Elkins Professor and Chair,
Department of Molecular Biology
Princeton University

**“Human cytomegalovirus induces and then blocks host
innate responses”**

Bernard Roizman, Sc.D.

Joseph Regenstein Distinguished Service Professor,
Department of Microbiology
The University of Chicago

**“The strategy of conquest: Herpes simplex viruses
vs. the host cell”**

Thursday, December 2, 2004
1:00p.m.-5:00p.m.

The Biological Sciences Learning Center
Room 115
924 East 57th Street
